React Native
React
Node / Express
MongoDB & Mongo Atlas
Apollo GraphQL
Git
Heroku (PaaS)
Postman
AWS

CAREER OBJECTIVE

"Build a world in which the vast majority of people wake up inspired, feel safe at work and return home fulfilled at the end of the day." - Simon Sinek.
I have joined and share in the *Just Cause* above. My WHY: Use and build technology that may be used to enable others to do what inspires them. I seek to find and contribute to a company of people who strive to further a cause bigger than themselves.

WORK EXPERIENCE

Technical Lead of Marketing

Spikeball Inc.

November 2021 - current / Remote

- Lead, design, optimize and develop Spikeball mobile app built with React Native collaborating with fellow colleagues
- Create project development timelines through collaboration with stakeholders for Spikeball mobile app
- Enhance Spikeball mobile app through quality and process control mechanisms
- Takeover development of React admin dashboard for Spikeball mobile app from freelance agency
- Build Marketing Team automations to increase team efficiencies and foster increased collaboration

Lead Mobile Developer

Spikeball Inc.

June 2019 - November 2021 / Remote

- Plan, develop and release Spikeball mobile app from the ground up
